ABOUT BMC

As one of the leading automotive companies providing solutions in transportation industries, BMC has been established in 1964. Since the first day of its foundation; BMC, by developing in-house know-how via its own R&D Center, has achieved a significant contribution of 10 billion dollars to Turkish economy. For 54 years, BMC has achieved to compensate the needs of its customers via the production of 300.000 vehicles.

Occupying a total area of 250.000 square meters in Pınarbaşı Plant, BMC manufactures buses for public transportation, light and heavy weight trucks for transportation and logistics industry together. Including a wide range of products from configuration vehicles, spare parts to casting pieces; BMC has carried out export activities to more than 80 countries which are on the most part members of European Union.

BMC presents an ability to develop dynamic and innovative viewpoint over research-development and design activities to produce passenger transportation vehicles. Thanks to the know-how specialized on three dimensional design and engineering analysis, BMC also supplies front or rear engined solo articulated and double decker buses with diesel, CNG and hybrid engines in the following lengths of 8,5 m - 9 m - 10 m - 12 m – 14 m - 18 m.

All these products can be reconfigured in accordance with the various demands received from different range of customers. With the aim of empowering its dynamic and flexible production capacity, BMC continues to work for the modernization of its overall structure by following the global sectoral trends.

Via foreseeing the customer demands and the prospective client needs, BMC continues to develop its expertise on offering solutions to maximize travel experience of the passengers at a more secure and comfortable level.

Operating with a highly skilled workforce including more than 3500 white and blue collar employees, BMC presents the capacity of manufacturing 22 thousands of vehicles. BMC Automotive Industry and Trade Co., Turkey's one of the largest manufacturers of commercial and military vehicles, is moving forward to become a global brand via the renewal of its goals.
