

PRESS RELEASE

BMC is at the Busworld Turkey!

14th – 17th April, 2016 / İstanbul - TURKEY

As one of the biggest commercial and military transport producers, BMC has gained major success with its 5 newly generated vehicles displayed in Busworld Turkey.

In the Busworld 2016 Exhibition that is carried out at the İstanbul Exhibition Center in the following duration of 14th and 17th April, 2016, BMC has gained widespread recognition with its new generation bus series representing the company's motto "The cities may change, your choice is BMC".

BMC, one of the biggest commercial and military transport producers, has been founded in İzmir in the year of 1964. By bringing together design, R&D center, engineering, production, sales and after sales services; BMC, since the beginning of its first day, has contributed 10 billion dollars to Turkish economy both with its vehicle production exceeding 300.000 pieces and its production of 341.000 engines.

Leaving behind half of a century since the first day of its foundation, BMC continues to produce solutions in every realm of commercial and military vehicle production within its integrated manufacturing facility which is established at the field of 250.000 square meters. While producing over 700 configuration vehicles (trailers; heavy, moderate and light trucks; small trucks; minibuses; single-decker buses; bus and wheel and mine protective tactical armoured military vehicles), spare parts, casting pieces; BMC, from the beginning of its first establishment, has carried out various export activities to more than 80 countries who are mainly members of the European Union.

PRESS RELEASE

BMC presents an ability to develop dynamic and innovative viewpoint over research-development and design activities to produce passenger transportation vehicles. Thanks to the know-how specialised on three dimensional design and engineering analysis, BMC also supplies front or rear engined solo articulated and double decker buses with diesel, CNG and hybrid engines in the following lengths of 7,5 m - 9 m - 10 m - 12 m up to 18 m. All these products can be reconfigured in accordance with the various demands received from different range of customers. With the aim of empowering its dynamic and flexible production capacity, BMC continues to work for the modernization of its overall structure by following the global sectoral trends.

By foreseeing the customer demands and the prospective client needs, BMC continues to develop its expertise on offering solutions to maximise travel experience of the passengers at a more secure and comfortable level.

Not only with its total work force including 1.300 employees but also with the production capacity of 22.000 vehicles per year, BMC continues to work for the achievement of a renewed goal to become a world-wide known brand.

BMC Procity 12 m Euro 6 Super Low-Floor Bus

Thanks to its Euro 6 engine, 6-speed automatic transmission and air suspension system; Procity offers a smooth driving experience for its passengers. The kneeling feature of the bus provides easy ingress and egress while foldable ramp ensures mobility for disabled passengers. Lowered dashboard increases the field of vision for the driver. The enlarged platform inside the vehicle enables standing passengers to travel in a much more comfortable way. Moreover, with fire extinguishing kit, security cameras, automatic greasing and automatic oil filling systems and air conditioning options adoptable to each city's climate conditions; Procity serves to cities in all conditions and circumstances.
